Act_ive De_sk® allows you to leave a big impact on the user, -not our natural world! By designing ergonomic furniture that supports better healthier environments for healthier people!..

Sustainability takes center stage in the interior design, architecture, and furnishing industry as a forward-thinking concept. Environmental, social, health, and wellbeing considerations are the cornerstone of a building's livability. At Act_ive De_sk®, we empower communities to forge, safeguard, and enhance enduring workplace environments.

With our extensive range of cutting-edge desktop surfacing solutions, height-adjustable leg frames, and accessories, Act_ive De_sk® presents architects and designers with a spectrum of sustainable materials. This enables the creation of visually appealing, secure, and trend-setting furniture, all while preserving the environment.

At Act_ive De_sk®, our unwavering focus remains on delivering innovative and sustainable solutions through our design ethos and manufacturing partnerships. We assist you in making informed decisions and earning points towards the highest levels of certification in sustainable building rating systems.

All our MFC & MDF wood based desk top products are manufactured in the UK and, our partners are committed to promoting sustainable forestry.

98.50% of the steel we use in our sit-stand desks is made from recyclable steel .

Our desk screens are manufactured in the UK and use 100% polyester fibre and contains a minimum of 60% previously recycled fibre (from PET plastics). Our products are designed to be recycled at the end of their life too.

We use Life Cycle Analysis (LCA) to understand the environmental impacts of our products and set targets to reduce these.

ACTIVE
DESK
PROMOTES
SUSTAINABLE
MATERIALS

Act_ive De_sk® as several options for the the desk tops which in turn have their own sustainability credentials. But all have the mark of responsible forestry, and certified wood forest management forest stewardship certificate.

Our Ranges

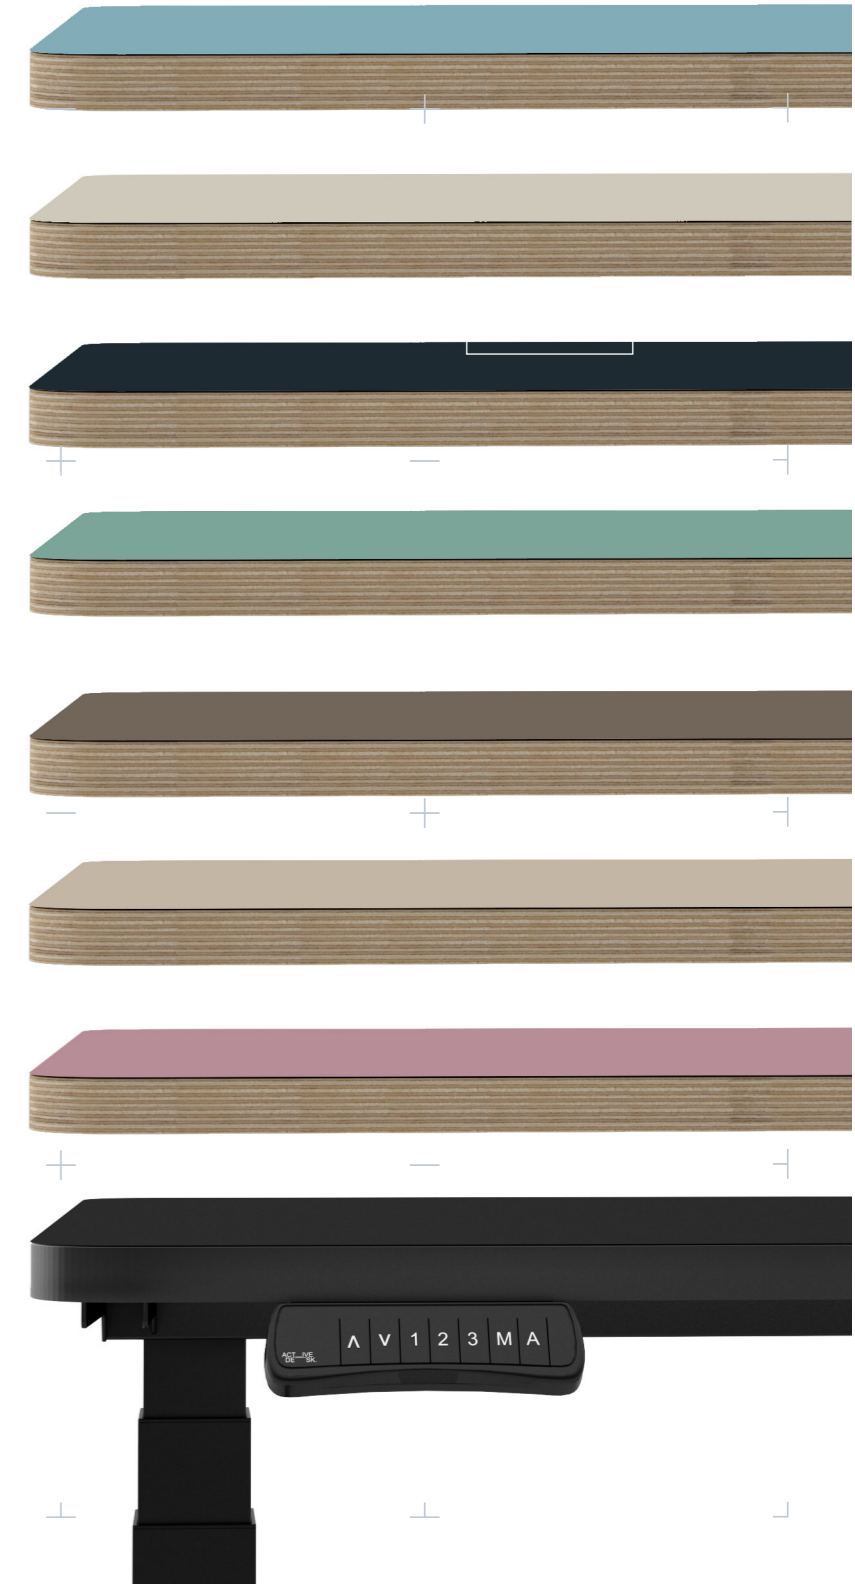

THE EXPRESSIVE & NATURALIST 18mm thick_ Are made in the UK from MFC and is 100% recyclable and FSC certified meaning that it is made from wood that is from a well-managed sustainable forest and protects Indigenous People's rights through to the methods of felling trees. MFC is one of the most sustainable wood based products.

THE EXPRESSIVE & NATURALIST 25mm thick_ Are made in the UK from MDF which as a material reduces waste. It also has no rigorous production processes, which means that it's not putting any strain on our renewable and non-renewable resources. It's also helping us reduce our carbon footprints. MDF cannot be recycled. But again, it's made from recycled materials, which means we're doing no damage to the environment through our production and consumption of it

The **SMOOTH OPERATOR 19mm_** Is made in the UK from MDF as above is a biodegradable material. It'll decompose under the right conditions. As such, it won't take up unnecessary space in our landfills for too long.

THE PERFECTIONIST 25mm_ Is made from 18mm plywood and is the most best option for sustainability credentials. The plywood is sourced from renewable sources in latvia and the boards are cut from our factory in the UK. The top is solid surface and is low in VOCs as certified by The Greenguard Environmental Institute,

A_3 Desk Tops..

A_4 Lifting Columns..

Act_ive De_sk® lifting columns are made from 98.5% recycled steel and have a life time warranty.

Our Ranges

DUAL & SINGLE MOTOR_ Our lifting columns are designed by us and sourced by our partner manufacture in Asia, who use 98.5% recycled steel in our products. We reduce carbon emissions by purchasing in bulk to our UK factory and therefore reducing deliveries.

We use 100% recycled packaging in all our products!...

A_5 Desk Screens..

Act_ive De_sk® screens are made in the UK from our partner company committed to best practice through ISO 9001+ and ISO 14001 certified Quality and Environmental Management Systems .

Environmental

Our screens contains a minimum of 60% previously recycled polyester fibre (from PET bottle-flake). Off-cuts and manufacturing waste are re-used or recycled wherever possible. Uncontaminated Cube can be recycled. Is manufactured from 100% polyester fibre and does not contain formaldehyde binders. The polyester fibre support safer indoor air quality and will not become a potential airborne pollutant.
